Thu 5:30pm Fri 9am athletic moves like running, lunging and jumping with strength exercises such as push-ups and squats. You'll burn tons of calories and improve your strength, coordination and agility, leaving you with an endorphin high!

BODYATTACK[™] combines high-energy

BODYBALANCE[™] is a yoga-based workout that benefits both body and mind. Simple moves set to great music improve your strength, balance and flexibility. You'll leave the class feeling calm, centered and ready to take on the world!

BODYCOMBAT[™] is a martial arts-inspired workout that is high-energy but totally non-contact. Punch and kick your way to fitness while learning moves from Karate, Taekwondo, Boxing, Muay Thai, Capoeira and Kung Fu. Release stress, have a blast and feel like a champ!

BODYPUMP[™] is a barbell-based strength training class that gets you lean, toned and fit – fast. You'll work all your major muscle groups using light to moderate weights with lots of repetitions. Leave the class feeling challenged and motivated, and ready to come back for more. It's our most popular class for a reason!

BODYSTEP™ is a cardio workout that tones your lower body like nothing else. In Classic BODYSTEP, you'll start with basic stepping, and gradually challenge your coordination with faster moves and the chance to show some flair. Functional BODYSTEP classes require less coordination but also use moves like burpees, push-ups and weight plate exercises to work the upper body. Either way, you (and your legs) will love it!

Tue 6:25pm Thu 6:25pm Fri 9:55am Sun 9am (45m)

SFLXCYCLE Thu 5:30pm Just like it sounds, Les Mills CORE[™] strengthens all the muscles in and around your body's core. (Think shoulders, abs, back and glutes.) A stronger core makes you better at *everything*, from everyday life activities to performance in your favorite sports. You'll feel the results right away!

FLX Cycle is our most music-driven indoor cycling class. An energetic mix of modern and retro tunes drawn from genres like EDM, pop, rock and R&B will help power you through a challenging blend of interval training, strength, speed and endurance work. Leave this workout smiling, sweaty and satisfied!

Mon 9am Tue 5:30pm Wed 6am Fri 6am / 9am Sat 9am (60 min)

Sprint Tue 7am

Sun 10am

Strength Development Will restart in late January Get on the fast track to a fitness transformation with GRIT[™], a 30 minute high-intensity interval training (HIIT) program. Bursts of strength &/or cardio work with short recovery periods will push your body way out of its comfort zone, and personalized coaching helps you nail the moves.

RPM[™] is high-energy, interval-based indoor cycling. In this 45 minute class, your instructor will motivate you to push through hill climbs, speedwork and power training. You control your own resistance levels and speed, so you can build up your fitness level over time. Burn lots of calories, improve your aerobic fitness and feel amazing afterwards!

SPRINT[™] takes the idea of high-intensity interval training (HIIT) onto an indoor bike. This style of HIIT has no impact on your joints, since the bike is your tool to push through short periods of maximum effort. You'll get super fit, super fast – 30 minutes is all you need for this workout!

Strength Development is a series of 12 45-minute small group workouts designed to build muscle and strength, with heavier weight and fewer, slower reps than we typically use in BODYPUMP. Pre-registration for this program is required–watch for announcements about signing up for the next round soon!
