BODYPUMP™ is a barbell-based strength training class that gets you lean, toned and fit – fast. You'll work all your major muscle groups using light to moderate weights with lots of repetitions. Leave the class feeling challenged and motivated, and ready to come back for more. It's our most popular class for a reason!

LES MILLS BODYSTEP

Fri 9am

BODYSTEP™ is a cardio workout that tones your lower body like nothing else. In Classic BODYSTEP, you'll start with basic stepping, and gradually challenge your coordination with faster moves and the chance to show some flair. Functional BODYSTEP requires less coordination but also uses moves like burpees, push-ups and weight plate exercises to work the upper body. Either way, you (and your legs) will love it!

LES MILLS CORE

Tue 5:30pm (45m)
Wed 7am (45m)
Fri 9:55am (30m)
Sun 9am (45m)

Just like it sounds, Les Mills CORE™ strengthens all the muscles in and around your body's core. (Think shoulders, abs, back and glutes.) A stronger core makes you better at *everything*, from everyday life activities to performance in your favorite sports. You'll feel the results right away!

FLX CYCLE

Thu 5:30pm

FLX Cycle is driven by an energetic mix of modern and retro music drawn from genres like EDM, pop, rock and R&B. Those big beats will help power you through a challenging blend of interval training, strength, speed and endurance work. Leave this workout smiling, sweaty and satisfied!

LES MILLS GRIT

Mon 4:45pm

Get on the fast track to a fitness transformation with GRIT™, a 30 minute high-intensity interval training (HIIT) program. Bursts of strength &/or cardio work with short recovery periods will push your body way out of its comfort zone, and personalized coaching helps you nail the moves.

LES MILLS RPM

Mon 9am
Tue 5:30pm
Wed 6am
Fri 6am / 9am

RPM™ is high-energy, interval-based indoor cycling. In this 45 minute class, your instructor will motivate you to push through hill climbs, speedwork and power training. You control your own resistance levels and speed, so you can build up your fitness level over time. Burn lots of calories, improve your aerobic fitness and feel amazing afterwards!

LES MILLS sprint

Sun 10am

SPRINT™ takes the idea of high-intensity interval training (HIIT) onto an indoor bike. This style of HIIT has no impact on your joints, since the bike is your tool to push through short periods of maximum effort. You'll get super fit, super fast – 30 minutes is all you need for this workout!

Strength Development

See separate schedule

Strength Development is a series of 45-minute small group workouts designed to build muscle and strength, with heavier weight and fewer, slower reps than we typically use in BODYPUMP. Pre-registration for this program is required!
